Ayush Tandon

Full-Stack AI Engineer | AI Systems | Backend

theayushtandon@gmail.com | LinkedIn | GitHub | LeetCode | Portfolio

Education

Bennett University **2024 – 2028**
B.Tech in Computer Science and Engineering *CGPA: 9.11 | Greater Noida, India*

Experience

Bennett University Hatchery **2026 – Present**
Full Stack Developer Intern *Startup Incubation Centre*

- Developed and deployed the official Hatchery platform using **Next.js, React, Laravel/PHP, Node.js, Supabase, Tailwind CSS, and GSAP** for incubation programs, mentorship, and investor relations.
- Built a custom CRM for startup lifecycle management, covering progress and milestone tracking, founder interactions, dashboards, and analytics; translated stakeholder needs into scalable workflows.

StepCode Technologies Pvt. Ltd. **Jun 2026 – Present**
Fullstack Developer Intern *Remote*

- Develop full-stack applications using React/Next.js, backend services, REST APIs, and database integrations; debug and optimize workflows for reliability and production readiness.

CorpVenue **Aug 2025 – Nov 2025**
Project Intern *Conversational AI*

- Built a Rasa-based conversational AI system with a React frontend and multi-turn dialogue flows; resolved backend bottlenecks affecting response latency and service reliability.

Projects

PR Sentinel – AI-Powered Pull Request Intelligence Platform **Oct 2026**
Python, FastAPI, Next.js, LLMs, GitHub APIs, AI Agents pr-sentinel-55j.pages.dev

- Built an AI-powered platform that analyzes pull requests to surface code-change risk, reviewer focus, and potential impact, with agentic workflows for diff analysis and AI-fix evaluation.
- **Won #1 at Microsoft Innovate 2026 – Developer Productivity Track.**

Rectitude.AI – AI Security and Governance Platform **Mar 2026 – Apr 2026**
FastAPI, HuggingFace Transformers, Next.js, LLMs rectitude-ai-prompt-guard.vercel.app

- Architected a zero-trust AI security gateway protecting LLM applications against prompt injection, jailbreaks, and data exfiltration.
- Built intent analysis, behavioral-drift monitoring, and autonomous red-teaming workflows for continuous AI threat simulation.

Bennett University Hatchery – Official CIE Platform **Jul 2026 – Oct 2026**
Next.js, React, Laravel/PHP, Supabase, Tailwind CSS, GSAP bennett-university-hatchery.vercel.app

- Developed and launched the official platform for startup incubation, mentorship, and investor relations, integrating responsive frontend and backend services.

BHIMS – Bennett Hatchery Incubation Management System **Jul 2026 – Oct 2026**
Next.js, Supabase, PostgreSQL, Tailwind CSS bennett-hatchery-crm.vercel.app

- Built a role-based CRM for Admins, Mentors, and Startup Founders with startup progress tracking, milestone management, founder interactions, and analytics dashboards.

Technical Skills

AI/ML: LLM Applications, Agentic Workflows, RAG, NLP, HuggingFace Transformers, LangChain, LangGraph, MCP
Languages: Python, Java, C++, TypeScript, JavaScript, SQL, PHP
Backend: FastAPI, Node.js, Laravel, REST APIs
Frontend: React, Next.js, Tailwind CSS, GSAP
Databases: PostgreSQL, Supabase
Architecture: System Design, API Design, Database Design, Scalability, Performance Optimization
Core CS: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks, Time and Space Complexity
Tools: Git, GitHub, Docker, AWS, Firebase, Vercel

Certifications

AWS Certified AI Practitioner – AWS (2026)
Agentic AI with LangChain and LangGraph – IBM (2026)
Advanced RAG with Vector Databases – IBM (2026)
Build AI Agents Using MCP – Coursera (2026)
Multimodal Generative AI Applications – IBM (2026)

Leadership & Achievements

- **Vice President, AIS:** Organized AI-focused events and workshops with **500+ attendees**; **Associate Lead, DCC:** Conducted DSA and development sessions for **200+ students**.
- **Competitive Programming:** Solved **200+ LeetCode** and **500+ CodeChef** problems; achieved **3-Star CodeChef**.
- **Achievements:** SIH Internal Rank **32/600+**; GOER Finalist, Top 10 among **60+ universities**.
